

Apprentice / Journeyman Machinist

Hitachi Canadian Industries Ltd. (HCI) is a major supplier of custom welding, machining, assembly and field services to the energy industry in Canada and around the world. We are currently looking for a **Journeyman or Apprentice Machinist** to join our highly skilled team at our manufacturing plant in Saskatoon.

Responsibilities:

- Promote a safe working environment
- Read and interpret blueprints and other written technical documents
- Operate machining equipment (manual and/or CNC machines)
- Precision measurement
- Use of hand tools
- Completion of Quality Records
- General organization, housekeeping, and maintenance of the production facility and equipment
- Other duties as assigned

Qualifications:

- Demonstrated commitment to safety
- Successful completion of a Machining Pre-Employment course or equivalent is a requirement
- Demonstrated ability to operate manual machines (lathe, mill, drill, press) would be considered assets
- Manual dexterity and demonstrated ability for accurate and precise work with hand tools
- Certified crane and forklift operator is desired
- Demonstrated ability to work independently as well as in a group setting
- Demonstrated written and oral communication skills are desired
- Availability to perform shift work

HCI is a wholly-owned subsidiary of Hitachi Ltd., and we enjoy the benefits of being part of a large international corporation and the advantages of operating locally.

We offer a competitive salary and benefits program and the chance to work on products that help generate energy locally and internationally.
